Topic
Physical Facilities [1]

Policy Number
600-10

Reviewed Date
February 1, 1997

Responsible Office
- Office of the Senior Vice Chancellor, Finance and Administration [2]

Purpose
To ensure consistent standards of quality and proper coordination with existing structures and infrastructures, this policy requires that all design and engineering projects be coordinated through Facilities Management.

Policy
A. All projects that require architectural design and engineering consultation, regardless of size, scope, dollar value, or source of funds must be approved by Facilities Management prior to their initiation.

B. After conferring with the campus department requesting a construction or renovation project, Facilities Management will determine if the project should be done by campus design professionals or outside design professionals who have been approved according to University procedures.

Responsibilities
Contact Office of Origin (see above) with any questions.
