Topic
Information Technology [1]

Policy Number
650-13

Reviewed Date
November 1, 2003

Responsible Office

- Office of the Senior Vice Chancellor, Finance and Administration [2]

Purpose

This policy delineates the required routing protocol for traffic being routed over the campus backbone network.

Definitions

Protocol

In information technology, a protocol is the special set of rules that end-points in a telecommunication connection use when they communicate.

Policy

Only IP protocol traffic may be routed through core routers on the campus backbone. Localized use of IPX and AppleTalk may continue, but are not recommended nor supported by Information Technology Services.

Responsibilities

Contact Responsible Office (see above) with any questions.
