Topic
Information Technology

Policy Number
650-13

Reviewed Date
January 25, 2017

Responsible Office
- Office of the Senior Vice Chancellor, Finance and Administration

Purpose
This policy delineates the required routing protocol for traffic being routed over the backbone network.

Definitions
Protocol

In information technology, a protocol is the special set of rules that end-points in a telecommunication connection use when they communicate.

Policy
Only IP protocol traffic may be routed through core systems on the backbone.

Responsibilities
Contact Responsible Office (see above) with any questions.
